

atg airports Ltd. Quality Policy

At atg airports limited:-

We are committed to providing 'Total Solutions' including a complete Portfolio of airfield lighting products and services, to meet the needs of airports and airfields world-wide, and to deliver to the highest standards of capability and service.

In order to achieve this we:

- Work in partnership with our Clients and Suppliers, continually monitor our performance and that of our suppliers and sub-contractors, add value and continually improve.
- Fully utilise and develop our people's skills and experience, and work to create a strong team environment, in order to effectively and efficiently deliver our products and services.
- Apply an effective electronic based Integrated Management System, including full compliance to ISO9001: 2000, ensuring that Projects and Products conform to requirements, and that learning and continuous improvement takes place.

Mission: Determined to Succeed Together

The Directors and Business Managers are committed to the compliance and continual improvement of the Integrated Management System and it's effectiveness.
